

WASTE POLICY

Megacon Group recognises our responsibilities and obligations under all current National and European legislation and regulations and are totally committed to and in support of compliance with the European Union Directives on Waste, Electrical and Electronic Equipment (WEEE) .

Megacon Group Places less than 5 tonnes of EEE on the UK market in a compliance year, and has therefore registered directly with the Environment Agency.

We undertake to

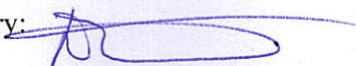

- Mark products with the crossed out wheeled bin symbol and a date mark
- Keep records for at least 4 years of the amount of EEE put on the market by category

As part of our on-going commitment to reducing waste we aim to

- Improve product design to facilitate recycling and reuse of components and materials wherever practical.
- Use consumables from a sustainable source
- Reduce the generation of and wherever possible treat, sort or recycle waste.

We operate a strong Environmental Management system and have ISO14001:2015 certification.
